

November Classic 1974 Results

Having announced that this year's Classic would be a 'club' and not a 'badge' event, and knowing that there was a rival attraction in the North, we had no idea how many competitors to expect. Would it be back to the 500-odd of 1972, or nearer last year's 850? We hoped for the former for an easy life, but we think that we managed to cope with the 689 individuals who took part - a nice compromise number - fairly well. My thanks are due to John Clarke who organized everything smoothly, with the help of the Robsons, Ron Garwood and his team, and the numerous helpers who turned out on the day (including the anonymous Army man without whom the Finish procedures would have ground to a halt!). Thanks too to Mr Jack Newman whose field we just managed to get you all into (and out of!).

On the courses, I count it a minor success to have channelled you all through only 43 controls, 6 of which were exclusive to the wayfarers, without any obvious congestion. Credit for much of this must go to controller Ron Wilton, for whose many valuable suggestions I am grateful, and who stayed surprisingly calm in the face of my numerous last-minute arrangements. I must also support one justifiable criticism of the map, whose yellow was really too pale to permit easy identification of the semi-open areas, which would account for among other things the difficulty some had with the niche (Control 1 on B) which was in fact marked on the edge of the semi-open.

One last point: it was noticeable how badly prepared many of the youngsters were on courses D and E -- some were without compasses, map-cases, pens, had very little idea of what they were about, and had clearly not been told that noise in the forest is not only undesirable in itself, but a big give-away of control locations. Group leaders and teachers please note.
