SOC's
 1981 NOVEMBER CLASSIC
 RESULTS

CONTROLLER'S COMMENTS

The November Classic has always been one of the highlights of the year for me, so I had no hesitation when invited to control this year's event and accepted gladly. Along with the planners, I was able to see the forest in many moods, but we were rewarded with glorious sunny weather to check out the controls on Saturday.

Like most natural forest it can be quite technical and the map, although presenting a few problems, was one of the most accurate I have seen of this sort of terrain. In spite of this, the shape of the area did not help the planners, but I think that John and Roger produced some good courses - maybe a shade long for the very wet conditions, but I heard few complaints and many appreciative comments.

SOC are a strong club and I was very impressed by the organisation over the weekend. I should like to add my thanks to Fred Smith and his team who, with a quite separate organisation, put on two good club courses and the Wayfarers.

One less favourable comment has to be directed at the few competitors who ignored 'uncrossable' fences. These must not be crossed and competitors infringing this rule can be disqualified. In this case I doubt if there was any real advantage to the competitors concerned, but in any case is there any orienteering in running along a main road?

Nigel Wilkins

ORGANISER'S COMMENTS

Having organised last year's event as well, I think I learned from last year's mistakes. I hope that you all enjoyed yourselves and that we will see you again next year, for which the mapping is well under way.

I must thank Nigel Wilkins for controlling and accepting the problems which we presented him with little complaint. John Horton and Roger Pleasant, who having said they would plan the event soon found that they had to do the mapping too. They have both worked very hard over the last few months and did an excellent job.

My team leader also did a lot of work before and after the event to ensure the smooth running of the event. My thanks go to Tim Holt (Finish), Gerry Barrell and Norman Grundy (Start), Martin Must (Result Processing), Mike Ballard (Result Printing), Trevor Summers and Fred Smith (Club Event), Ray Holt, John Pugh and Derek Hannah (Map Drawing).

The unenviable task of result processing was handled admirably by Keith and Pam Burford. This should be relatively simple but is made difficult by people who can't enter on time or change their mind after they have entered.

The Controller has already made his comments about people crossing uncrossable fences. A number of people were seen crossing uncrossable fences and, in fact, cheating. They are giving the sport a bad name and jeopardising its future. One person was even seen crossing the A31!

Mike Rice

PLANNER'S REPORT - CASTLE MARWOOD

Wandering through the forest in July/August in training shoes I kept my feet dry all day, only avoiding the bigger marshes. However, for this event we could have superimposed a blue screen over the majority of the map and still not given an accurate representation! The pleasure of running round on a misty, moisty morning checking controls at 07.30 was only marred by the fact that at 16.00 we have to go round to the same sites, most of which could now have been described as marshes, and retrieve the same controls!

To the people who complained about the controls on streams in deep gullies, if you weren't wet by then what were YOU wearing?

John Horton

PLANNER'S REPORT - SHAVE WOOD

Planning the courses that used Shave Wood presented two problems. The area, being triangular, made it very difficult to get in and out of the corners, consequently M21A had 18 controls in 9.2 Km before reaching the underpass. Also it was necessary to start long courses in Shave Wood, hence a long walk to the start.

Shave Wood is a fast area, despite the holly, and courses were designed with this in mind, the more technical aspect coming later (when runners were tired).

Many thanks to SOC members who helped map the area (many hands make light work), and a special thanks to Nigel Wilkins (ROC) whose helpful suggestions were gratefully received.

Roger Pleasant
