

**SOUTHAMPTON
ORIENTEERING CLUB**

presents the

RESULTS
of the
35th NOVEMBER CLASSIC

held at
**DENNY LODGE,
NEW FOREST**

on
Sunday 3rd NOVEMBER 2002

ORGANISER'S COMMENTS**Di Smith**

In mid July our original Controller pulled out. A week later, the event Organiser also withdrew, both for very valid reasons. However, within a week we had a new Controller (thank you David) and a new Organiser and we began pulling together all those threads that make an event happen. SOC is blessed with many long-term Orienteers with experience of major roles in events and willing volunteers allowed me to delegate most of the major tasks. You would think that a campsite the size of Hollands Wood would be a dream car park and assembly area. Not so. We had strict instructions to avoid churning up the grass, so had to find you tracks and patches of bare gravel scattered around. The deluge the day before the event made it even more critical. We had received adverse comments about litter after using this site for last year's event. Although I was sure that it was not of our doing, I made sure this year by inspecting the site and campsite bins the day before, then, with the FC's permission, I locked all the bins. After the event I went round with a bin liner looking for rubbish – I could not find any. Thank you all for confirming what I already knew – that Orienteers really care about their environment.

We had a frisson of excitement on the day when the Head Agister of the New Forest arrived at 10 o'clock, mystified to find over 1000 people of all ages milling around the campsite and forest – he had been given clearance to organise a round-up of ponies in this area of forest and run them through the campsite to a collecting point - in the next 2 hours! I'm not sure who was most surprised. Suffice it to say that, having tried to warn everyone, we were relieved to see just a handful of riders and ponies moving to one side of the campsite.

Sue Massey has asked me to thank everyone who bought her flapjacks and apple chutney in support of Cancer Research.

My thanks to all the controllers, the planners and the huge number of SOC members who made it all happen – in their spare time!

PLANNERS' COMMENTS**Julian Lyne**

Using the same venue as last year meant that there were two sets of constraints, one real, the numerous out of bounds areas, and the other, possibly more perceived than real, the need to do something different. The first resulted in a number of courses having otherwise inexplicable sections where a longish path run was the only sensible option; the latter meant finding new control sites, and this in turn meant using some of the less "user friendly" parts of the forest that Graham Harrison had avoided last year. This year's courses were generally a little shorter than last year, but the rain during the preceding three weeks really softened up the going, and although the majority of the winning times look OK, a few were a bit slower than I expected. I would like to thank David Thomas for his low-key but effective controlling. Once the control sites had been agreed, it was never more than a case of "don't you think course X is a bit physical in places for class Y". The courses you ran were therefore, for better or worse, all mine.

We should also thank the forest team, who worked diligently in atrocious conditions on the Saturday to ensure that everything was where it was supposed to be, and were out at dawn on the Sunday placing the control boxes. Mark and Alex, contributing just 39 BOF years to the team total of 319, probably did as many k's between them as the rest of us put together. It was

a shame that the box at 560 didn't show the same devotion to duty. (Thanks to Colin Hicks for interrupting his run to let us know.) I should also like to thank Graham Harrison for all his work on the map, which included nearly 40 revisions, as well as plotting all the courses.

Thank you all for coming, I hope you enjoyed Denny Lodge revisited.

CONTROLLER'S COMMENTS**David Thomas**

I was invited to become the Controller for the Classic towards the end of July: at that point the car park had to be agreed.....

Three visits to the land towards the end of August were worrying. The bracken was up to six feet tall, the streams were dry, as were the marshes and so on (see the event details for other "worries"). Various control sites were very hard to locate.

So much for the grizzles. Terry Smith, my Assistant Controller has lived in the area for many years and reckoned that the bracken would be less of a problem by November. Julian, the Planner, worked hard on his courses and eliminated the dodgy controls. The map was brought up to date and final timescales were met.

The eve of the event proved memorable for its wetness. Fortunately, Julian had innovated an ingenious plan for siting the controls (less Sport Ident boxes) and everything was put out in less than two hours. Control checking took much longer: I think it's the wettest I've ever been Thank you to Terry, and Mike Pemberton who joined the checking team. Finishing off the checking on Sunday morning attracted the main storm of the day: I must have offended the Gods!

Placing the SI boxes on Sunday went smoothly and everything was ready by 1000h.

Unfortunately the innovation of having a fallback of control cards was tested early on by the failure of 560, which was No. 1 on several courses. The new system certainly showed its worth, but some better means of telling the results computer is needed. The "electronics" gave some problems during the day: damp conditions are far from ideal!

Julian's courses received many favourable comments: indeed, I heard very few grumbles. Even flooded depressions with kites partially submerged caused little comment. One real plus point was a largely sunny day: thank heavens it wasn't a "Saturday" event or visited by a storm which would have forced cancellation.

All in all a very interesting Classic: our thanks go to Julian and Terry and to Di and her team for all their hard work. I look forward to competing next year.
