MOONRAKER RELAY plus Individual courses (amendments in green)

Venue: Warminster Garrison

Terrain: The event will be run throughout the Warminster Garrison, which is predominantly urban. The courses will run inside and outside of camp, and the terrain is pretty similar. The camp area is open with undulating terrain and a good network of roads and tracks with built up areas interspersed with small woods, hedges and drainage ditches. There is minimal traffic in the camp and speed is slow. The area outside of camp is slightly busier with traffic and consists of a dispersed housing estate. The whole area is fast and runnable. It is an Urban event so shorts and trainers will be fine, but bright colours please so you can be seen effectively.
